Proses *ping* dari Server0 pada setiap PC.

The screenshot shows a Windows Server 2003 desktop environment. The taskbar at the top includes icons for 'Server0', 'Start', 'Run', and 'Stop'. The desktop has several tabs: 'Physical', 'Config', 'Services', 'Desktop', 'Programming', and 'Attributes'. A 'Command Prompt' window is open, displaying the results of three ping commands. Each command shows four successful replies with a 32-byte data size, a time of 1ms, and a TTL of 128. The statistics for each ping indicate that all packets were sent and received, with a 0% loss rate. The approximate round trip times are 0ms for the first two pings and 1ms for the third.
